

M. C. Escher Pop Ups

Paper Engineer: Courtney Watson McCarthy

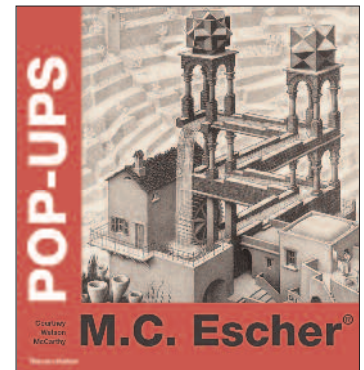

Publication date: 19 September 2011

Price: £19.95

The graphic art of Maurits Cornelis Escher is like that of no other artist. Instantly recognizable to millions around the world, his works represent an endlessly fascinating marriage of art and mathematics. Exploring themes of infinity and paradox, impossible geometry and warped perspective, Escher's world is one of playful imagination and the unexpected, executed with precision and exquisite attention to detail. This luxurious, large-volume book's pop-up renditions of some of Escher's most famous works add even more intrigue, bringing his dazzling, baffling designs to life.

Every pop-up is accompanied by a quotation from Escher's writings: *'Only those who attempt the absurd will achieve the impossible.'*

This lavish book also includes two 'pull-tabs', of *Symmetry Drawings* and *Blowball*, and a 2-D reproduction of *Metamorphosis III*.
